

Vistara Cloud Essentials

World of Multiple Clouds

IT is cloudy.

Enterprise customers want the benefits of cloud, but struggle to manage IT operations in a multi-cloud environment.

Cloud Providers face intense competition and rapidly changing customer requirements, while tackling new business models and margin shifts.

Vistara Cloud Essentials allows Cloud Providers to offer a comprehensive management capability to customers to become the one-stop provider for cloud consumption with infrastructure, services and management.

Vistara Cloud Essentials Benefits

Vistara delivers a best-in-class unified management solution for any cloud instances that provides advanced features over the native tools available.

- **Differentiate cloud offers** beyond IaaS by bundling cloud lifecycle management
- **Offer customers choice** to manage their services wherever they may be in a multi cloud world
- **Deliver sticky services** on top of IaaS offers to deliver higher value to customers and create recurring revenue opportunities.
